

Should AI Help With This?

Use AI as an assistant without outsourcing professional judgment. Last reviewed: September 2026.

THE TASK - What am I trying to accomplish?

THE VALUE - What could AI usefully contribute?

- Save time ■ Generate possibilities ■ Organize information ■ Analyze patterns
- Adapt a starting point ■ Reduce repetitive work ■ Other

THE HUMAN CHECK - What context or judgment matters here?

- Student knowledge ■ Professional judgment ■ Sensitive/private information
- Cultural/community context ■ High-stakes communication ■ Significant student decision

If several are checked, AI should be an assistant, not the decision-maker.

VERIFY BEFORE USING

- Accuracy ■ Appropriateness ■ Alignment ■ Bias/context ■ Tone ■ Privacy ■ Sounds like me

What will I do with the time this saves?

Final question: Is this helping me become a better teacher - or merely helping me produce more?
