

Build a Student Voice Legacy Project

Plan a project students genuinely own. Root it in your own students, school, and community.

PURPOSE - What should students gain? Why should this exist?

AUDIENCE - Who is it for? Why should they care?

STUDENT OWNERSHIP - What can students actually lead?

■ Topics ■ Research ■ Questions ■ Hosting/interviewing
■ Creating ■ Editing/review ■ Promotion ■ Reflection ■ Teach future students

COMMUNITY - Who could contribute? Whose perspective is missing?

LEGACY - What should future students inherit?

What should future students be allowed to change?

How will current learning, procedures, permissions, and lessons learned be preserved?

Final question: Are students completing this project - or building something that actually belongs to them?
